HOUSEMASTER'S REPORT

I wish all our boys, staff and parents a relaxing and rewarding break, following an extremely arduous Term 3.

The challenge that lies before us is to maintain our standards going into the Fourth Term as this is a very important term academically.

It is paramount in developing their potential and fulfilling their long-term goals. Education is the one firm foundation on which every young man should build their future and base their careers.

Good luck to everyone with your endeavours in your studies. I wish you the very best and remind you not to hesitate to tap into the extensive support infrastructures that College offers.

I wish the Fuller House 6th Form of 2025 all the best for their final exams and thank them for the guidance and efforts behind the scenes. They have had a successful Trials Exam from all accounts and hopefully this translates into a good set of results. The onus now is to finish the year off on the front foot and not leave any stone unturned in preparing for their final exams.

At the end of this term our grade 8,9 and 10 boys all embarked on their leadership camps, and we look forward to hearing all the stories next term.

Looking forward to next term, it is a busy but brief term, so I actively encourage the boys of Fuller House to rest well before they return fully recharged next term.

Mr T Orchard
