

# Commons House

## Housemaster Report

As the academic year draws to a close, Commons House reflects on a journey marked by growth, resilience, and shared achievement. From spirited inter-house competitions to the quiet determination shown during examinations, our learners have demonstrated grit and heart at every turn.

The transition into summer sports infused fresh energy into our fields and courts, with cricket, athletics, and swimming showcasing teamwork and tenacity. Camps this year offered more than adventure—they became spaces for reflection, identity, and connection. Around firesides and along trails, friendships deepened, and learners discovered new facets of themselves, embodying the spirit of Commons beyond the classroom.

As we celebrate these milestones, we also acknowledge the unwavering support of our teachers and the commitment of our students. Together, we have built a community of excellence, empathy, and enduring spirit. Finally, enjoy the images below capturing the magnificent achievements of our boys across diverse environments within the school, a testament to their talent and determination on so many fronts.

Commons House finishes this year strong, and looks forward to an even brighter year ahead.
